ABSTRACT

A survey of college and university libraries was conducted in the fall of 1973. This volume, Part B of the survey report, presents institutional data on college and university library collections, staffing, salaries and wages, expenditures, and interlibrary loan transactions for the 1972-73 academic year. Also presented are data on staff vacancies, staff by sex and highest earned degree, administrative units and service points of libraries and learning resource centers, and physical facilities of libraries as of fall 1973. Summary data are presented in Part A. (EMH)

SELECTED DATA

College and university libraries in this survey reported total operating expenditures of about $867 million.

Approximately $439 million was expended for salaries and wages for 53,875 library employees.

The total holdings of these libraries provided user access to 407 million items of printed, unreduced materials (books, periodicals, and other serial titles) and nearly 219 million microform items (microfilm and all other reduced formats).

Approximately 1.75 million loans were made and 1.25 million loans received from other types of libraries.

Contributed services were equivalent to approximately $4.5 million in salaries.

Public institutions employed 64 percent of the regular full-time-equivalent library staff.

FOREWORD

Surveys of college and university libraries were initiated by the U.S. Office of Education for 1939-40 and conducted during the 1940's and 1950's at irregular intervals. In 1967 these surveys became a part of the Higher Education General Information Survey (HEGIS) system of the National Center for Education Statistics.

For the convenience of users, the report is published in two parts. Summary data are presented in Part A and institutional data in this volume, Part B. The only exception is institutional expenditure data which, because they are so widely used, are included in Part A.

This report is based on a survey of college and university libraries conducted in the fall of 1973. The data cover basic statistics on the library collections, staffing, hours of assistance, salaries, wages for hourly staff, library loan transactions, and operational expenditures by function. The innovative parts of the survey deal with interlibrary loan transactions, physical facilities, and learning resource centers in academic institutions. In addition, indexes concerning expenditures, collections, staffing, and State and national summary tables for all key items are presented.

Appreciation is expressed to the College and University Library Statistics Committee and to the representatives of the Association of Research Libraries and the Association of College and Research Libraries who assisted with the drafting of the survey instrument, and the many librarians, institutional administrators, and cooperating organizations and agencies that made the completeness of this survey possible.

below), (b) "joint libraries" which serve two or more institutions or branches of institutions (see section entitled *Joint Libraries*), and (c) a few small colleges which had no formally organized libraries.

New Libraries

In this survey, 15 institutions were identified as having "new" libraries if (1) respondent correspondence indicated that a report could not be submitted because the library was just being organized or (2) if, in their completed forms, respondents reported (a) that their institutions had acquired, during the year, holdings (volumes, microform, and periodicals) equal to the number held at the end of the previous academic year; (b) that staffs were small; and (c) that expenditures for library materials equalled or exceeded salary and wage expenditures. To avoid introduction of bias into the data distributions, the 15 new libraries were excluded from the tabulations.

Table A-1, which presents the distribution of the institutions with new libraries by type and control, shows they were concentrated in the publicly controlled 2-year category.

Joint Libraries

For the purpose of this survey a joint library is defined as one that serves two or more academic institutions or one institution and a part of another. This survey identified 16 joint libraries serving 37 institutions and 1 component of another institution. Table A-2 shows each of the joint libraries by control, type, and enrollment.

In the 2-year period since the previous survey, the number of joint libraries that could be specifically identified showed a net increase of three.

Nonrespondents and Imputation Procedures

Of the 2,887 college and university libraries covered in the survey, 41 (1.4 percent) did not return a report.

To provide a summary tabulation representative of all institutions, data for each nonrespondent were estimated by using data reported by a "matching" unit; i.e., a responding institution that–in control, type, enrollment size, State or region, and other characteristics–was similar to the nonrespondent.

The number of responding and nonresponding institutions in the library survey are shown in table A-3.

Institutional Count

The universe of institutions of higher education in the aggregate United States totaled 2,939. As already indicated, three groups had to be excluded from this survey–those without libraries, with joint libraries, or with new libraries–reducing the total to 2,871. However, 16 joint libraries, representing 37 institutions, have been added to bring the fall 1973 academic library universe to 2,887.

Components of change contributing to development of the library universe from the total universe of institutions are shown in table A-4.

Verification of Data

To obtain complete and accurate data, the completed questionnaires were examined, analyzed, and reviewed for compliance with the instructions. A clean data base was declared when the following requirements were met:

1. All outright errors (arithmetic, omissions, keypunch, etc.) were corrected.
2. All data questioned on a relative or judgmental basis, including data falling outside tolerance units, were corrected or verified.

INTRODUCTION

During the 1960's institutional data for college and university libraries were published for all years except 1964 and 1965. Analytic reports were released for 1960, 1962, 1964, 1968, and 1969. The 1971 survey resulted in a three-part release; Parts A and B contained institutional listings, and Part C, analytic data. No surveys of academic libraries were conducted during 1970 and 1972.

The 1973 survey is presented in two parts. This volume, Part B, presents institutional data on college and university library collections, staffing, salaries and wages, expenditures, and interlibrary loan transactions for the 1972-73 academic year, as well as staff vacancies, staff by sex and highest earned degree, administrative units and service points of libraries and learning resource centers, and physical facilities of libraries as of fall 1973. Summary data are presented in Part A.

SURVEY COVERAGE AND METHODOLOGY

Institutions Covered

For purposes of this report, colleges and universities are institutions that offer programs of at least 2 years of college-level studies in residence and are either (a) accredited by nationally recognized accrediting agencies, including State and local education authorities, (b) in a preaccredited status with nationally recognized accrediting agencies, or (c) provide credits accepted by at least three accredited institutions. Institutions meeting these criteria are listed in *Education Directory, Higher Education,* published annually by the National Center for Education Statistics (NCES). There are 2,887 such institutions in the total library universe.

The institutions are grouped by (1) type and (2) control:

1. **Type**

   a. *Universities* (a) give considerable stress to graduate instruction, (b) confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and (c) have at least two professional schools that are not exclusively technological.

   b. *Other 4-year institutions with graduate students,* although not classifiable as universities, offer programs leading to graduate or other postbaccalaureate degrees (including first-professional degrees).

   c. *Other 4-year institutions without graduate students.*

   d. *Two-year institutions* provide programs of at least 2 but fewer than 4 years of college-level work. These include some trade-technical and business schools, as well as community or junior colleges.

The classifications for universities and 2-year institutions are the same as those used in other NCES reports. For purposes of this report, however, the standard classification, "other 4-year institutions," was subdivided, permitting separate tabulations of data for 4-year institutions with graduate students since such schools require additional specialized library services.

2. **Control**

   a. *Publicly controlled* institutions include those administered by local and State governments, and a few over which the Federal Government has full administrative control.

   b. *Privately controlled* institutions include independent nonprofit, religious, theological, and proprietary institutions.

Methods of Reporting Data

Library data were collected on the basis of individual reports for "reporting units"; that is, for the main campus, branches, extension centers, etc., of multicampus institutions, and for the institution as a whole in the case of single-campus institutions or those that are parts of an institutional system.

Therefore, there was a separate report submitted on the library operations of each institution listed in the *Education Directory, 1973-1974,* except for the following types of institutions: (a) institutions whose libraries were new in the survey year (see discussion

3. All institutions were represented in the data file by either a response submitted by the institution or one imputed by NCES.[1]

The editing of the data was accomplished in two phases: the manual or scan edit phase and the machine edit phase. The purpose of the manual or scan edit was to correct minor or obvious errors before keypunching and to eliminate grossly incorrect reports which would not benefit from the full content edit. The machine editing requirements and specifications included the presence/absence and tolerance checks of 1973 versus 1971 data, consistency checks, and the accuracy of reported responses. In addition, these requirements and specifications contained instructions concerning error message printouts which were computer-generated outputs of machine edit runs.[2] When appropriate, institutions were contacted by letter or telephone to obtain verification or revision of reported data.

OE FORM 2300-5, 3/73

PLEASE READ THE FOLLOWING EXPLANATIONS AND INSTRUCTIONS BEFORE COMPLETING THIS FORM. DETACH THIS PORTION AND MAIL THE COMPLETED FORM TO THE U.S. OFFICE OF EDUCATION, NATIONAL CENTER FOR EDUCATIONAL STATISTICS, ATTENTION: ROOM 2153-LSB, 400 MARYLAND AVENUE, SW., WASHINGTON, D.C. 20202.

EXPLANATIONS AND INSTRUCTIONS

In this form, basic data are requested on the collections, staff, and expenditures for college and university libraries. The compilations of these data have proved to be valuable tools for administrators, chief librarians, and others concerned with the improvement of library services to higher education. The data also will assist in the administration of Title II of the Higher Education Act and other programs sponsored by State and Federal agencies.

GENERAL INSTRUCTIONS

A. TIME PERIODS COVERED – One period of time *(academic year 1972-73)* and two points of time *(end of academic year 1972-73 and fall 1973)* are involved in this survey.

B. LIBRARY UNITS COVERED – Report consolidated data for all library units of your campus and for all library services provided by your library to clientele of your own institution as well as to clientele outside of your institution.

Fill out a separate form for the main campus and for each branch or other campus. Do not fill out separate forms for extension centers and research installations. Information concerning extension center libraries and research installation libraries should be reported on the form for the main campus; in the case of administratively equal campuses of a multi-campus institution, extension center libraries and research installation libraries should be reported on the form for the most closely related campus. Data on library services in separately budgeted research *("R and D")* centers should be included on the form for the appropriate campus.

If it is necessary to omit library data for any part of your campus, such as a law school library or a medical school library, write the name and address of the library unit(s) omitted from this report in item 9. Do not use item 9 to list library units whose data you included on this form.

C. NEED FOR ESTIMATES – Do not leave any items blank. Enter "0" if the appropriate entry for an item is zero or "none." If an exact figure is not available for a particular item, but the amount is known to be greater than zero, **ENTER AN ESTIMATE** of the amount. Indicate the estimated data by parentheses (   ). Estimates are important if exact data are not available for items such as the linear feet in Government document collections *(line 11)*, interlibrary loans *(lines 45 and 46)*, net assignable area *(line 49)*, seating capacity *(line 50)*, shelving capacity *(line 51)*, salary expenditures of library staff serving on a regular basis, and salary equivalents of contributed services library staff *(lines 18 through 22)*. Items left blank may be misinterpreted and result in errors in the data-processing operations. Request help from your business office in providing library expenditure and budget data.

D. QUESTIONS – If you have questions or need more copies of this form, telephone Dr. Stanley V. Smith, (202) 963-4587, Library Surveys Branch, National Center for Educational Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202.

SPECIFIC INSTRUCTIONS

PART I – LIBRARY COLLECTION 1972-73, AND PERIODICALS FALL 1973

E. VOLUME — For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or made ready for use.

F. PRINTED GOVERNMENT DOCUMENTS – A printed government document is any publication in book or serial form bearing a government imprint, e.g., the publications of Federal, State, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc.

G. MICROFORM AND MICROFILM – All forms of microform *(including microfilm)* are to be excluded from lines 10 and 11, but **ARE TO BE REPORTED SEPARATELY** on lines 12 and 13. If the number of volume equivalents or other units of microform are not separately available in your records, estimate their number for purposes of providing separate data here.

H. PERIODICALS – A periodical is a publication issued in parts that usually contain articles by several contributors. It generally has a distinctive title and the successive numbers or parts are intended to appear at stated intervals, usually for an indefinite period.

PART II – LIBRARY STAFF 1972-73 AND FALL 1973

I. REGULAR STAFF – Regular staff is defined as staff in full-time and part-time positions, usually serving with salary contracts. If your library has staff members who are not students and who are paid on an hourly basis, but who fill positions for which contract salaries are paid in most other libraries, it is essential for the purposes of this survey to report such staff with the **REGULAR STAFF**. Students serving on an hourly basis should be reported on line 23.

J. LIBRARIAN, MEDIA SPECIALIST, OTHER PROFESSIONAL, AND CLERICAL AND OTHER STAFF – LIBRARIANS *(line 18)* are defined as staff doing work that requires training and skill in the theoretical or scientific aspect of library work, as distinct from its mechanical or clerical aspect. MEDIA SPECIALISTS *(line 19)* are defined as staff doing work that requires professional training and skill in educational media. PROFESSIONAL STAFF OTHER THAN LIBRARIANS AND MEDIA SPECIALISTS *(line 20)* are persons who, though not librarians and not media specialists, are in positions normally requiring at least a bachelor's degree. CLERICAL AND OTHER STAFF ON LIBRARY BUDGET *(line 21)* are persons in technical assistance, receiving, shipping, storing, secretarial duties, etc., *(exclusive of custodial service and students serving on an hourly basis)* who are specifically assigned to the library and are covered in the library budget.

K. CONTRIBUTED SERVICE STAFF – CONTRIBUTED SERVICE STAFF should be reported only by religious institutions or institutions affiliated with religious or theological organizations. PUBLICALLY CONTROLLED institutions receiving contributed or volunteer service *(if any)* should EXCLUDE data on such service in this report.

L. FULL-TIME EQUIVALENTS OF REGULAR STAFF – The positions of all regular staff members should be reported in terms of FULL-TIME EQUIVALENT *(FTE)* UNITS. Full-time equivalents are defined as the number of positions of a given staff level of persons who serve the library on a full-time basis, PLUS the full-time equivalent of any positions of the same staff level of persons who serve the library on LESS than a full-time basis. *(Assume that the term "full-time" is defined as it is used by your business office.)* For the purposes of completing lines 18 through 22, and line 34, note the following examples of service which should be counted as a .5 FTE:

a. A position for a person employed by your institution on a half-time basis throughout the year, and serving the library exclusively during that period.

b. A position for a person employed by your institution on a full-time basis throughout the year, but who EITHER serves the LIBRARY only half-time during the year, OR serves the LIBRARY full-time during only one-half of the year.

M. HIGHEST EARNED DEGREE – Each regular staff member should be counted in one and only one of the first six columns of Part II, Section C, as well as in one of the two total columns, *(columns h and i)*. Library staff that hold a fifth year degree in librarianship or information science should be counted in both columns j and f or columns k and g.

PART III — LIBRARY OPERATING *(CURRENT)* EXPENDITURES, 1972-73

N. AMOUNT – To insure accurate reporting, have your business officer assist with the entries made in lines 36 through 44. Report only funds expended for the academic year 1972-73, regardless of when the funds may have been received from Federal, State, or other sources. Report all expenditures as whole dollars only – OMIT CENTS.

O. SALARIES AND WAGES – Include expenditures for salaries and wages before any deductions, but exclude "fringe benefits" provided by your institution *(line 40)*. Wages of students serving on an hourly basis, charged to the library *(line 42)* should exclude all expenditures for wages not charged to the library.

P. OPERATING EXPENDITURES OTHER THAN SALARIES AND WAGES – **Expenditures for books and other printed materials** *(line 36)* should INCLUDE expenditures for materials in microform, and EXCLUDE expenditures for periodical subscriptions. **Expenditures for audiovisual and other nonprint materials** *(line 38)* should EXCLUDE expenditures for materials in microform. Audiovisual and other nonprint materials include: (1) slides, transparencies, filmstrips, and films OTHER THAN those whose primary purpose is the reduction in size of printed materials; (2) dial-access program materials, audio-tape, video-tape, and disk *(phono-record)* recordings; and (3) study prints, art prints, art objects, posters, charts, diagrams, globes, maps, kits, and realia *(e.g., museum materials)*. **DO NOT** include microforms with audiovisual and other nonprint materials. **Other operating expenditures charged to the library** *(line 43)* should include expenditures for REPLACING equipment and furnishings; however, expenditures for capital outlay should be EXCLUDED from this form. **Grand total operating expenditures** *(line 44)* should be the same as line 8, Part B, item 1.G. Libraries of "Financial Statistics of Institutions of Higher Education for Fiscal Year 1973." OE Form 2300-4.

PART IV – DEVELOPMENTAL AREAS

Q. LEARNING RESOURCE CENTERS OTHER THAN THE LIBRARY – Learning resource centers other than the library are defined as units that are sufficiently large to acquire organizational identification as distinct from individual assignment, with an administrative or supervisory head, which may have their own budget and facilities, and whose programs focus on learning resources, including audiovisual and telecommunications, and encompass instructional development functions and instructional system components.

R. ADMINISTRATIVE UNIT AND SERVICE POINTS – An administrative unit *(line 47)* is a single library or other learning resource center or a group of libraries and/or other learning resource centers under a single director or a single administration. **A service point** *(line 48)* is the administrative unit itself if the unit provides a service for users on its own premises, as well as such branches of the administrative unit that also provide services for users. For the purposes of completing lines 47 and 48, note the following examples:

a. A library and other learning resource center with no branch services will be counted as 1 administrative unit and 1 service point.

b. A library and other learning resource center which provides a service for users on its own premises and also in 4 other separate premises will be counted as 1 administrative unit and 5 service points.

S. NET ASSIGNABLE AREA – The net assignable area *(line 49)* is the total space which can be used in furtherance of the library's and other learning resource's mission. It consists of the sum of all areas *(measured in square feet)* on all floors of all buildings assigned to library and other learning resource center functions or purposes. It includes space for readers and reading areas, bookstack or related storage areas, working spaces for staff, spaces for services to users, public service desks, copying equipment, telecommunication equipment, art production equipment, and similar useful space. Such space does **NOT** include vestibules, lobbies, or traffic areas, janitorial or custodial storage or service areas, toilets, elevator or stairway space, building corridors or similar space not specifically used for library or other learning resource center functions.

The number of square feet in the net assignable area is determined by measuring the space between the permanent interior walls. Floor areas occupied by built-in furnishings such as service counters, closets, and shelving, are included in the wall-to-wall net square feet. No deductions are made for columns or for projections necessary to the building structure.

T.
